Aristotle 360

Release Notes

06/03/2011

WHAT'S NEW IN THIS RELEASE

1. New Features

- Spanish Support
  360 provides optional Spanish support for all functionality except for reports.

2. Enhancements

- Add legislator entity types to activities: User shall be able to create activities for legislators (e.g. email to a legislator) using this enhancement.
- Provided individual address, city, state and zip with individual during linking process in 'Note' popup. This is to select individual when the search results in multiple individual records with the same name.
- Record statistics and other collapsible panels on individual and other entity pages display collapse/expand icons, to improve ease of use.
- Improved speed for selecting and opening an existing individual, organization, committee or legislator.
- Improved speed for saving a new individual, organization, committee or legislator.
- Improved speed for opening a list in List Manager to view all entities in the list.
- Improved speed for Basic Individual Search, specifically when searching for individuals.
- Speed significantly improved for login into 360 application.
- Improved speed for various activities with Federated Access enabled.
