

Aristotle 360

Release Notes

Version: 4.x
11/29/2011

WHAT'S NEW IN THIS RELEASE

1. Enhancements

User Permissions

User Permissions have been updated to provide ability to control access to Import Manager. With this update, only users who are given permissions to Import Manager can access it and can import data into the system.

SMS

Individual basic search and Query Builder features now include the ability to search for individuals based on their opt-in or opt-out preference.

Action Alert Topic Selection

Action alert creation wizard has been enhanced to include topic / key issue selection. With this addition, Grassroots admin can set up a relevant topic for an action alert and also map the alert topic with relevant topics available on website contact forms of targeted legislators.

Action Alert Results

- Counts on Action Alert results page are now hyperlinked. Clicking on these shall take user to corresponding activities, individuals or legislators in Current Selection.
- Query Builder has been enhanced to search for activities that are associated with an action alert.
- In Current Selection, action alert activities, individual or legislators can now be exported into Excel along with relevant action alert information.

Thank You Tracking

This feature has been enhanced to make 'Thanked' field on Receipt editable. Using this, user can flag a receipt as 'Thanked' or 'Unthanked'.

Batch Delete

A new database configuration setting is now available to enable/disable batch 'Delete' option.

Email Performance

Performance of 360 Email Service has been improved significantly to send emails out at a much faster rate. Per current benchmarks, Email Service shall be able to send 100,000 emails out in less than 15 minutes.

For any additional information, please contact our support at support@arisotle.com or at 800-243-4401.
